severa airless

Technik für anspruchsvolle Texturen

Die zuverlässige Spenderfunktion bei Cremes, Gels, Lotionen und sensiblen Texturen. Ihre wertvollen Texturwirkstoffe werden gegen Oxidation und Verschmutzung von außen geschützt. Je nach Material der Airless Flaschen kann die Konzentration von Konservierern reduziert werden.

Technique for sophisticated textures

Reliable dispensing of creams, gels, lotions and mild textures. Your valuable ingredients are protected against oxidation and pollution from the outside. Depending on the bottle material, use and concentration of preservatives can be reduced.
